

# RESTORE DIRECT COMPONENT (POT 1)

## **RESTORE Direct Component (Pot 1):**

Escambia County currently has \$70 million allocated directly to our area from the Transocean, Anadarko and BP litigation settlements. These funds are not able to be used until the County develops a Multi-Year Implementation Plan (currently in progress). The Board of County Commissioners appointed the RESTORE Advisory Committee to oversee project selection criteria and ranking. Over the past two and a half years (2013-2016), the RESTORE Advisory Committee has developed the following:

1. Escambia County Needs Assessment
2. Project Selection Criteria
3. Project Portal and Application
4. Project Ranking

This product of ranked projects will serve as a resource for environmental and economic restoration in Escambia County. The implementation and procurement process will occur after a list of projects is approved by the Board of County Commissioners and the U.S. Treasury. Currently, Escambia County is allowed to spend \$10.6 million from the Transocean settlement.
