- Work in Escambia County Located her for the Military
- Provide services to Escambia County residents No relationship

What sector describes you? [select all that apply]

- Law Enforcement Addiction Services Professional Education Youth
- Healthcare Individual in Recovery Community Member
- State/Local Government Other (please specify): Citizen

Step 1: Four main categories are identified to help address the opioid epidemic. Indicate what percentage of funds you think should be spent on each category [total should equal 100%].

Criminal Justice	Prevention efforts with monitoring drug trafficking, treatment in jail/prison and upon release, referral to treatment after release; drug courts that by require services/treatment as a condition of probation	%
Harm Reduction	Support efforts to prevent or reduce overdose deaths or other opioid-related harms through evidence-based or evidence-informed programs or strategies.	%
Prevention	Strategies to prevent all levels of substance use, including services for individuals, families, communities, and general society	%
Treatment & Recovery	Designed to help people stop using substances, remain sober and drug free, improve health and wellness, and strive to reach their full potential. Recovery is a lifelong process	%

Step 2: Programs within each of the four categories can vary. Using each number once within the category, rank programs in order of importance – 1 being the most, 6 being the least

RANK

PREVENTION	Prescription Drug Monitoring Program	Improve and increase use of Minnesota's Prescription Drug Monitoring Program (PDMP). This system is used by health care providers to track controlled substance prescriptions, identify prescribing trends, and prevent overprescribing	1-6
	SBIRT: Screening, Brief Intervention, and Referral to Treatment	Training and funding to use screening tools to identify substance use, offer ways to prevent substance use disorder, and refer to treatment	1-6
	Provider Education	Training for health care providers on non-opioid pain treatment, non-addictive ways to treat chronic pain, and the safest ways to prescribe opioids	1-6
	Community	Funding for schools, child care, family services, and job training to prevent drug use	1-6
	Primary Prevention	Programs and strategies shown to prevent drug use, including family and youth programs, that promote healthy behavior and relationships and reduce risk factors, as well as adult education programs and public education campaigns	1-6
	Drug Take Back and Storage	Expand drug take-back programs to allow drugs and medications to be returned to any pharmacy on any day and distribute safe storage containers for at home use	1-6

Step 2 continued: Programs within each of the four categories can vary. Using each number once in the category, rank programs in order of importance – 1 being the most, 6 being the least **RANK**

CRIMINAL JUSTICE	Law Enforcement	Funding and training for local police, drug task forces, and efforts that prevent illegal drugs from getting to their destination	1-4
	Community Corrections	Develop or expand drug or family courts and other law enforcement programs that help people using drugs find treatment and stay in the community	1-4
	Jail-Based Treatment	Expand addiction treatment in jails and prisons	1-4
	Post-Incarceration Social Programs	Programs that help people recovering from substance use disorders reunite with their communities following jail/prison time	1-4
TREATMENT & RECOVERY	Treatment Expansion	Expand substance use disorder treatment, i.e., detox, inpatient/residential and outpatient treatment, and medications for opioid use disorder	1-4
	Recovery Supports	Programs that promote recovery, like access to housing and health care, employment and job training, and peer support programs	1-4
	Rural/Underserved Treatment Programs	Expand treatment options in rural and underserved areas, including mobile programs and telehealth/telemedicine programs	1-4
	Research and Evaluation	Funding to research different treatments, evaluate treatment and recovery programs, and research the impact of policy changes on drug use/overdoses	1-4
HARM REDUCTION	Overdose Surveillance	Track drug-related death and overdoses. Funding for law enforcement, medical examiners, and coroners to improve accuracy and timeliness of autopsy drug-testing	1-5
	HIV and Hepatitis Treatment	Screening, early detection, vaccines, and treatment for HIV, hepatitis, and other medical issues that may occur among people who use drugs	1-5
	Overdose-Reversal	Increase availability of naloxone and training on how to give naloxone	1-5
	Drug Checking	Distribute test strips for fentanyl, plus other drug-checking services	1-5
	Family Support	Support services for children and families affected by substance use disorders, including training for professionals such as teachers, law enforcement, and others	1-5
