

# Coronavirus (COVID-19) Walk-up Testing

9am - 1pm Monday through Friday  
Brownsville Community Center  
3200 W De Soto St., Pensacola, Florida

To ensure the safety and wellness of everyone in the community, we are now offering convenient *walk-up* COVID-19 testing in addition to the existing *drive-through* testing.

## WHAT YOU NEED TO KNOW

- To help prevent the spread of COVID-19, please call 850-746-2684 to be **pre-screened** over the phone before visiting the walk-up testing site. Tell the phone representative you plan on visiting the **WALK-UP** site.
- Walk-up COVID-19 testing is open to everyone in the community, **children and adults** who qualify through pre-screening.
- Walk-up COVID-19 testing is provided at **no cost** to you. If you have health insurance, your insurance will cover cost. If you do not have insurance, it's ok! You can still be tested **free of charge**.
- Walk-up COVID-19 testing is **not a doctor visit**. You will not receive a medical examination. We will only be collecting a specimen to send to lab for processing, and then you will be free to go.
- If you meet the pre-screening criteria, you'll be put on the schedule for walk-up testing and given additional instructions.
- Once your test is complete, you will be asked to go home and **self-isolate**, or keep away from other people (even family members) until we know the results of your COVID-19 test.
- Once we receive your test results, we will **call you** to share results and give you instructions on what to do next. Please be sure we have a good working contact number for you.

**PLEASE CALL THE PRE-SCREENING HOTLINE 850-746-2684 BEFORE ARRIVING.**
