

Construction Notice of Commencement

Merlin Road Drainage Improvements Project - Phase II

Project Overview

Escambia County's Engineering Division will soon begin the Merlin Road Drainage Improvements Project in District 1 to upgrade and repair existing stormwater facilities. This project involves two phases of construction. Phase I, near Helen Caro Elementary, has been completed. Phase II will involve the removal and replacement of driveways and culverts, and the construction of a new outlet to the bay to alleviate flooding.

Every effort will be made by the contractor to minimize inconveniences to area residents. An Escambia County inspector will monitor the construction areas daily.

Resident Information

- The estimated project construction cost is \$478,000, funded with Local Option Sales Tax, or LOST dollars.
- Construction is estimated to take place during the hours of 7 a.m. and 5:30 p.m., Monday through Friday.
- Roadways may be blocked briefly during construction, but you will be provided access to your property at all times, although there may be short periods when your driveway may be blocked, as construction progresses.
- We appreciate your cooperation and patience during this construction process.
