

Crockett Street & Crestfield Circle Drainage Improvements Project – Phase 1

02/25/2019

Crockett Street at West Roberts Road

Existing stormwater pond to be improved (looking northwest)

Location	Area	Design Cost	Construction Cost	Funding Source	
Crockett Street & Crestfield Circle – Phase 1	~5+ acres	\$70,745	\$368,236 (Apparent Low Bid)	L.O.S.T.	\$310,000 subsequent phase

The Crockett Street & Crestfield Drainage Improvement Project is a L.O.S.T. funded design project to expand a regional stormwater pond called Blue Pit located west of Pine Forest Road and south of West Roberts Road in District 5. The intent of the drainage improvements is to route stormwater from along Crockett Street and West Roberts Road to the Blue Pit pond to alleviate area flooding. A subsequent phase includes drainage improvements on Crestfield Circle and installing stormwater pipe from West Roberts Road to the expanded pond.
