## ESCAMBIA COUNTY DISTRICT 4

June 2025

While the temperature rises, so does our resolve—to stay focused, stay engaged, and stay ready for what's next.

As we step into June, we're not just marking the midpoint of the year—we're doubling down on our commitment to progress, public service, and the people of Escambia County.

We've made significant progress this year—with \$34 million invested in upgrading and building new fire stations, all three major hospitals now able to provide patient transfers, and funding approved for 10 new Paramedic positions. These aren't just numbers—they're real steps toward faster emergency response, better coordination, and stronger support for the people who show up for us every day.

I know your time is valuable, and I believe staying connected to your community shouldn't be complicated. That's why we're working to bring more tools straight to your fingertips—so whether you have a concern, a question, or an idea, it's easier than ever to make your voice heard.

As always, my team and I are here to help. You can reach out any time at [district4@myescambia.com](mailto:district4@myescambia.com).
