## ESCAMBIA COUNTY DISTRICT 4

October 2025

### October: Cooler Days, Warmer Connections

I am thrilled to share that Escambia County EMS has been recognized as one of Florida's top EMS providers for pediatric readiness, earning the Florida PEDReady Gold Tier Award—one of only seven in the state!

This recognition reflects their outstanding commitment to protecting our youngest residents with excellence and compassion. Please join me in congratulating our EMS team on this incredible achievement!

It is with great pleasure to announce public safety on Pensacola Beach is being enhanced through the strategic placement of video cameras in key areas to support the Escambia County Sheriff's Office.

These tools provide real-time information to help keep residents and visitors alike safe.

I always enjoy connecting with our community. If your neighborhood association has a meeting coming up, I would love to attend and hear from you directly!

Please reach out at [district4@myescambia.com](mailto:district4@myescambia.com).

Together, we are making Escambia County an even better place to live, work, and visit!
