

Godwin Lane Pit Regional Pond Project 2/22/2019

District 1

Location	Construction Cost	Funding	Source
Godwin Lane	\$562,000.00	LOST IV	\$150,000.00
		LOST III	\$150,000.00
		Developer	\$150,000.00

This project will repurpose a county owned borrow pit into a regional stormwater pond with drainage improvements along Godwin Lane. This plan will reduce the stormwater runoff along the gulley along the South boundary of Floridian Phase 2 subdivision. The developer of Embers Ridge subdivision will contribute to the construction costs enabling the subdivision to utilize the pond in lieu of onsite subdivision stormwater ponds.
