

HIGH TUNNEL PEST MANAGEMENT FIELD DAY

Aliff Farm

3030 Purdue Road
McDavid, FL 32568

December 2, 2021

Download the Farming Basics Phone App and take the online course for more specialty crop information!!

10 a.m. - Noon

Program Coordinators: Alabama Extension/Auburn University, UF Extension, and Aliff Farm

Program Speakers

Libbie Johnson– UF/IFAS Extension Agriculture Agent, TJ and Wendy Aliff – Aliff Farm, Escambia County (FL) growers, Dr. Ayanava Majumdar – Alabama Cooperative Extension System, Auburn University Entomology and Plant Pathology Department

This program will discuss the research being conducted on growing vegetables in high tunnels using exclusion fabric to help reduce major damaging insects and improve crop yields. The most current research data will be discussed, including the many benefits of using this type of growing system as well as some of the challenges. This program should be beneficial for smaller scale vegetable farmers, both organic and traditional. NRCS and FSA Field personnel as well as Extension Agents are encouraged to attend. This workshop will be conducted outside so please dress appropriately. We will be following social distancing practices and masks are encouraged.

***There is no charge for the program but please call Escambia County office to register (850) 475-5230 to register, as attendance will be limited.

Major funding from the SARE Research & Education Program, USDA-NIFA BFRD (Phases 1 & 2), CPPM/EIP, OREI, and ADAI Specialty Crops Block Grant Programs.
