

# MGO - Searching Projects

**Step 1:** Hover over **Requests** in the blue directory bar on the upper left-hand side of the screen. From the dropdown select **Search**.

**Step 2:** On the Project Advanced Search page, you will see your jurisdiction and the project types assigned to your account.

This page allows you to search by project number, name, address, description, contact names, and more. Partial information, such just the first two number of a project, will yield more results. The more information you enter, the narrower your search results will be.
