

Innerarity Water System Expenses

Fact Sheet

- In March of 2014, by court order, Escambia County took over ownership of the water and sewer system on Innerarity Island.
- Florida Department of Environmental Protection has granted Escambia County \$1.5 million for the maintenance of the existing water and sewer system, the full design and construction of the water system upgrade, and the consultant work and partial construction of the sewer system upgrade.
- Upon construction completion, the water system will be taken over by ECUA. This takeover is planned for March 1, 2018.
- The planned total for the water service construction is \$819,520.

Overage from FDEP grant will be used toward Innerarity sewer system upgrades
