Table 5. ADA Review with Notes

Project Name	Requires ADA Review? Y/N	Applicant Acknowledgement? Y/N/*DNA	Notes
Maritime Heritage Trail	Y	Y	This project involves the creation of the maritime cultural heritage and nature trail and the construction of the zipline. ADA review will be needed because of public accessibility along the trail.
Women's Transitional Shelter & Support Center	Y	Y	This project proposes a new shelter. The transitional shelter and support center would provide a safe place to sleep and assistance through counseling, support groups, job skills training, opportunities, and information. It would also provide a temporary residence so that women can achieve economic independence through transitional services, employment, and education. This shelter and plans would require an ADA review.
Belmont Cultural Center Heritage Tourism Destination Phase I	Y	Y	This project proposes a facility that serves as a support mechanism for the Heritage Preservation Network, Florida Heritage Trails, and other various statewide and coastal tourism entities. The project will encompass infrastructure renovations which facilitate Building Development, construction, environmental permitting, for applicable areas. With new building construction, ADA review will be needed.
Cantonment Sportsplex	More Info Needed	DNA	The overall project will be a complete restoration of the Cantonment Sportsplex to provide a park which will offer multiple sports outlets to all kids and families. ADA review will probably be needed, but more information regarding project details needs to be known other than 'restoration'.
Paddle Lacrosse Golf Courses	More Info Needed	DNA	The proposed project is the installation of Paddle Lacrosse Golf Courses. More information is needed in regards to what new proposed development does this include. This Paddle Lacrosse Golf will need some accessibility and manner in which people start playing the game. Accessibility detail is needed before it can be determined if an ADA review is needed or not.
Oakland Community Park	y	Y	This project includes recreational trails and water access and thus would need to meet ADA regulations. The goal of the project would include wetlands habitat restoration as well as recreational trails and water access. More information is needed in the form of plans of how the site will be accessible to the public. ADA review will be needed but this project needs more detail.
Restore City Creek	Y	Y	Based on the project description, this project refers to a 'lineal greenway park and new downtown development'. This 'greenway' park refers to a 'pleasant walkable/bikeable and disabled access'. This will require an ADA review.
Navy Point Rain Gardens and Community Greens	Y	Y	This project primarily deals with proposed rain gardens and stormwater improvements which do not require an ADA review. However, there is mention of 'community gardens' which will require review. The community greens will be designed in strict accordance with the Americans with Disabilities standards and HUD guidelines. ADA review will be required.
Economic Loss Zone/Infrastructure	N	Y	This project primarily deal with replacing broken, leaking sewer, water, and gas line and over all infrastructure. This would not require any public access and thus wouldn't require an ADA study.
North Palafox Street Road Diet and Beautification	Y	Y	This project is a technically a beautification project but with a net effect being less stormwater flowing downstream. However, part of the beautification project will have proposed bicycle land and shaded sidewalks, which will require an ADA review.

Perdido Bay Public Waterway Access Site	Y	Y	This proposed project seek to use funds to construct a public boat launch and paddlecraft (canoes, kayaks, stand-up paddleboards, etc). The entire facility will be fully compliant with all regulations, including ADA, and thus an ADA study will need to be done.
Old East Hill Community Market	Y	Y	This project involves developing a community market and meeting area in the Old East Hill neighborhood. This will include public access and thus need to have an ADA review.
Pensacola Adaptive Sailing Outreach	Y	Y	This project involves improvement to a boat ramp. Work associated with this project will include improvements, among other, such as creating a handicap friendly platform. Pensacola Adaptive Sailing Outreach will conform to ADA standards and thus will need an ADA review.
Hispanic Community Center	Y	Y	This project proposes a community center. The facility would contain an auditorium, kitchen, class rooms, meeting rooms, computers, large outdoor area, ect. These publicly accessible areas would require an ADA review.
Community Advocacy Center	Y	Y	This proposed project is for the construction of an approximately 40,000 square foot structure. The facility will consist of administrative offices on the first floor with affordable housing located on the second floor. The facilities on the first and second floor will need to be accessible and thus need an ADA review.
SOAR WITH RESTORE	Y	Y	Among other things mentioned, the "SOAR" project will create an African American Heritage Trail from The Tan-Yard to Century. This trail will include historical markers located in our community partners' neighborhoods. This trail will need to have an ADA review. More information is also needed in regards to general accessibility.
OLF8 Commerce Park Improvements	More Info Needed	DNA	OLF-8 project discusses among other things a proposed recreation trail throughout the park. This trail may need an ADA review based on the accessibility, but there is much more information and clarity that is needed on this project on what exactly is being proposed to be constructed.
Seville Harbour Breakwater	Y	Y	This project involves the construction of breakwater to protect a marina. Along with construction along this submerged land includes sidewalk construction, ADA compliant access to the breakwater walkway and ADA compliant boat slips. This project will require an ADA review.
IHMC Community Meeting Hall Expansion	Y	Y	This project proposes to expand the current community meeting room to allow for increased community engagement and participation and to allow for new educational activities to be held in this expanded space. The proposed Community Meeting Room Expansion will comply with ADA standards and thus will require an ADA review.
Hollice T. Williams Park -Stormwater Management/Recreational Facilities Project	Y	Y	The proposed project will examine and construct fully accessible dual use stormwater and recreation basins. The recreational facilities including soccer, football, and other sports. The recreational areas will more than likely have public access and require an ADA review.
Native Paths Boardwalk	Y	Y	This project involves the construction of a boardwalk. This is an accessible path and will require an ADA review.
Maritime Sports Tourism Development Project/ Maritime Infrastructure Project	Y	Y	The proposed project will examine and construct an accessible community marina. This is a marina that will provide public access to the waterway adjacent to Maritime Park. This will require ADA review.
Sanders Beach Park Addition / Beach Restoration	Y	Y	This project involves the addition onto an existing park. Additions to this park among, other things, will include parking and restrooms. Parking will be provided with accessible parking and accessible routes to all required areas. Restrooms will be accessible. These will require ADA review.

Escambia County Santa Rosa Island Property Boardwalk and Observation Towers	Y	Y	The Project entails the construction of 2.3 miles of public access boardwalk on the Santa Rosa Island Maritime Forest dune system. This boardwalk construction will require ADA review.
BAYWALK PROMENADE	Y	Y	The Baywalk Promenade is a walkway and will extend from an existing sidewalk out and over the hardened shoreline and follow the coastline. It serves to maximize public access and recreational opportunities to the coastal shoreline. Because there is public access, an ADA review will be needed.
Culinary Entrepreneurial Incubator Center	Y	Y	The Culinary Entrepreneurial Incubator Center provides short- or long-term professional kitchen leases at subsidized rates on a flexible time-share basis. The cooking areas and the viewing area will both be public access and require an ADA review.
Portable Marine Training Facilities	Y	Y	In this portable marine training facility, there will be a mobile land-based facility. This seems to suggest an ADA review will be needed but very little detailed information is given regarding it.
Warrington Multi-Use Facility	Y	Y	The first phase of this multi-use facility project will provide a public access waterfront meeting area with Historical education and ADA parking. This public accessibility will trigger an ADA review.
CareerLaunch at Boys & Girls Club	N	Y	The funds for this project involve hosting an event. No proposed construction seems to be involved, therefore an ADA review is not necessary. The event description has stated that it will be ADA accessible.
Escambia County/ ECUA Resource Recovery Project-Energy Island	N	Y	The Escambia County ECUA Resource Recovery Project is, among, other things a materials recovery facility (MRF). The MRF will maximize the recovery of recyclables from MSW that are currently landfilled. An ADA review is not needed for this type of facility.
Sam's Surf City, Wave pool/Youth Training & Aquatic Recreation Program	Y	Y	This proposed project involves primarily adding a wave pool to Sam's Surf City facility. The project also plans to add a variety of related community services. Both the new wave pool and other community services fall under ADA and an ADA review would be needed.
If we build it, they will come	Y	Y	The proposed project would implement an RV Facility for volunteer and volun-tourist lodging at Pensacola Habitat for Humanity's affiliate headquarters. Pensacola Habitat for Humanity is seeking funding to develop a Volunteer RV Park on the seven-acre site of its headquarters. The RV Park would have twelve spaces to accommodate recreational vehicles with utility hookups, as well as a campground-style bathhouse that also would serve as a small storm shelter. These public facilities would require an ADA review.
Loaves and Fishes Emergency Family Shelter	Y	Y	The project includes the relocation of the existing Loaves & Fishes Soup Kitchen Emergency Family Shelter to a larger site within Escambia County. The project involves construction of an approximate 18,000 square foot emergency shelter with the ability to house 20 families on site at any given time. The project will require ADA review.
Englewood-Northeast Brownsville-West Moreno Urban Revitalization Project	More Info Needed	DNA	Phase I of the proposed project will consist of the development of a Master Plan which integrates an assortment of projects, design plans, feasibility analyses, and visions into an effective, and implementable community-based design. This master plan project will not require an ADA review. Phase II will initiate the project implementation. ADA review will probably be needed for Phase II projects, but this is dependent on the type of individual projects and is TBD. Phase III and Phase IV is TBD as well. More information is needed on Phase II projects before ADA review can be determined

Museum Plaza	Y	Y	The Museum Plaza project is centered on the betterment of the public by replacing problematic parking lots with an urban green space. The Museum Plaza design will solve all of these issues by placing the focus back on the pedestrian and the environment. A series of ADA accessible walkways will lead visitors through a site filled with native plants, educational displays, and shaded seating areas. an ADA review will needed.
Emerald Coast Institute for Living Shorelines	Y	Y	This project will establish a research center or institute within the framework of an existing educational center (e.g., UWF) to perform research on planning, design, construction, and performance of living shorelines in the Emerald Coast environment.
