

Bacteria Pollution Control Plan (BPCP) for Carpenter Creek (WBID #676)

“Maps on the Table” Planning Meeting

Date: Wednesday, August 30, 2017

Time: 1:00pm – 3:00pm CST

Location: Large Conference Room 104

Escambia County Central Office Complex

3363 West Park Place, Pensacola, FL 32505

Purpose: A Bacteria Pollution Control Plan has been developed to address the existing fecal coliform bacteria TMDL for the Carpenter Creek watershed. Participants will document known problems and other areas of concern related to the existing Carpenter Creek Total Maximum Daily Load (TMDL) for fecal bacteria. Information compiled will be used to support ongoing efforts to find and resolve problems contributing to elevated bacteria levels in the creek. This meeting is hosted by Escambia County on behalf its NPDES co-permittees (Permit #FLS000019-004): City of Pensacola, Florida Department of Transportation, and Town of Century.

THIS MEETING IS OPEN TO THE PUBLIC

AGENDA

- Welcome & Introductions
- BPCP Process Overview and Update
- MOT Exercise and Stakeholder Discussion (60-90 minutes)
- Summary of Findings from Breakout Groups
- Next Steps
