Rescue line bags Model #226

General characteristics:

1. Contains 70 feet of 3/8” solid braided vinyl coated nylon rope
2. Ultraviolet resistant and abrasion resistance.
3. Floats in water.
4. Rapid, accurate deployment capability.

To use:

1. Open the bag and hold the knot. Pull out 4 feet of line.
2. Hold open end of bag and throw the bag using an underarm swing.
3. Rope should be dried & inspected for damage before repacking for use.
