

Escambia County Corrections Bureau

Road Prison Division

Medical SOG # 113
Trauma Bag

Purpose: This SOG relates to Trauma Bag procedures.

Procedure: The Medical Corrections Officer will check off the Trauma bag after every use to assure that all items used have been replaced. Any items used from the Trauma bag when Escambia County EMS has been called to the scene may be replaced, when available, from the ambulance. Always ask the ambulance crew before taking any supplies from the ambulance. If the items cannot be replaced by Escambia County EMS replace item out of the Escambia County Road Prison stock.

The oxygen bottle will be checked prior to each shift to assure that the bottle is full (2,000 psi) and that no leaks are noted with the regulator.

An itemized list of contents of the Trauma bag will be on file for future reference.
