1. What is your minimum number of days for enrollment?
2. What specific carriers do you provide your services for? Does your service support *Cricket, Metro PCS, Boost Mobile, Straight Talk, or Track Phone*?
3. Will your product be efficient in rural areas where there are no cell phone towers?
4. We are more interested in a flat rate, and less in favor of step down costs. Is this an option for you to consider, i.e., a straight across the board flat rate for the complete number of days enrolled as opposed to a minimum number of days of enrollment, and then a reduced cost for the remaining days?
5. Will your service have a call center and designated personnel to handle violations and alerts, so that we will only receive the reports of confirmed violations/alerts, tampers or any other warnings? Will you have live interaction for the Community Corrections staff 24/7?
6. Do you provide cell phones for the offenders? If so, how many will you have available for use in Escambia County?
7. Will you be able to provide an expert witness for court testimony?
8. Are your fees negotiable?
