Overview of the Process:

Escambia County will be utilizing a two-stage process to procure design-build services for their new Jail facility. The first step will be to prequalify Design-Build Entities, via a Request for Qualifications. The second step will be the issuance of a Request for Proposals to the short listed DBE's. The RFQ will request specific information on each entity, which the County will then score and rank to identify the top three DBE firms. These top three firms will be invited to submit a more detailed response, based on the project design criteria, schedule, and site requirements as outlined in the RFP. A Cost Proposal will be part of the RFP requirements.

Any firm unable to respond in the affirmative to Section XVII. QUESTIONNAIRE FOR DBE, Section 2: Essential requirements for DBE shall not be considered a responsible firm and thus not considered for this solicitation.

I. GENERAL PREQUALIFICATION PROCESS AND REQUIREMENTS

A. GENERAL INFORMATION

- **Project:** Escambia County Jail
- **Location:** Corner of Fairfield Drive and Pace Boulevard, Pensacola Florida
- **Owner:** Escambia County

B. PROCUREMENT METHOD

For this Project, the County is utilizing a Design-Build, Cost/Design Competition, known as “Best Value”. The proposers will be shortlisted on a qualifications basis. Escambia County will issue Technical Criteria which each shortlisted Design-Build Entity will propose a qualitative proposal and firm price. An evaluation process for qualitative assessment will be established, as well as a fixed price. Escambia County will review each proposal, then the fixed price to determine which proposal offers the best value, which is a combination of qualitative factor scores and the fixed price. The county currently estimates the project budget to be approximately \$134 million. The actual stipulated sum requirements will be defined in the RFP.

C. DEFINITIONS

X. PROJECT DESCRIPTION

Construction Phase 1 of the project consists of planning, design, and construction of a new jail of approximately 720 rated beds and complete support functions designed for future phases of construction as inmate beds are added. Phase 2 of construction (not part of the DBE scope) is anticipated to provide another 700-800 beds. The overall area of new construction is anticipated to be approx. **304,000 GSF**.

The Construction Phase 1 support functions include the following components:

1. Site Development
2. Entry Area
3. Facility Administration
4. Staff Services & Training
5. Admissions/Classification/Release (ACR)
6. Custody Administration
7. Central Control

8. Inmate Services & Programs
9. Visitation
10. Housing Units and Unit Management
11. Medical Health Services
12. Mental Health Services
13. Commissary
14. Food Service
15. Laundry
16. Building Support
17. Corridor Connection to existing jail

The project site (formally known as the McDonald property) is located on the Southeast corner of Fairfield Drive and Pace Blvd in Pensacola, Florida. The site is comprised of approximately 14 acres of commercial property and vacant land. The project site is adjacent to the existing county jail and a physical corridor connection is required as part of the DBE scope. The county has purchased the property and will demolish all above ground and below ground structures in the vicinity of the designated project site, prior to the contract NTP for the DBE. It is the intention of the county to designate a portion of the site as future commercial property, but those identified areas will be available for the DBE to utilize as contractor material storage, mobilization, trailer complex, and worker parking during the project construction phases.

The County has performed a Phase 1 & 2 environmental analysis, preliminary geotechnical borings, and a topographic survey of the property. This information will be provided as part of the RFP information given to the shortlisted DBEs who are participating in the stage 2 the selection process. It is anticipated that the project site and surrounding county property on the McDonald site will be rezoned prior to contract NTP for the DBE.

It is anticipated that the jail will be a multistory configuration due to the compact nature of the proposed site. The work anticipated in the existing jail is limited to a physical corridor connection and security electronic controls, communications, and fire alarm work related to the consolidation of the new Master Control and the existing Master Control

XI. **DBE RESPONSIBILITY OVERVIEW**

The Design Builder will be responsible for all planning, design and Agency approvals, permits, construction, start-up and testing, commissioning coordination, equipment selection/coordination/installation (contractor furnished, contractor installed), equipment coordination/handling/installation (owner furnished, contractor installed), equipment coordination (owner furnished, owner installed) and activation coordination for the Project. The DBE will be responsible for additional geotechnical investigation, construction surveying, environmental/hazmat, connections to existing utility, storm-water design/permitting, and subsurface conditions investigations needed for overall site engineering and development. The Design Builder will also be responsible for final specification of all fixed equipment and furnishings to the satisfaction of the County, and coordinating final specification of Owner Furnished/Contractor Installed equipment and furnishings. The DBE will coordinate with the County and County's consultants in providing for and coordinating installation of Owner Furnished Owner Installed equipment and furnishings.

XII. **COUNTY CONSULTANTS**

The County has retained the services of a Design Criteria Professional (DLR Group) to assist the County in the preparation of the RFQ and RFP process and to continue with the administrative oversight of the Project during construction. The Design-Builder will be expected to work collaboratively with the County's Design Criteria Professional.

Consultant firms and/or individuals who are, or have been involved in the preparation of this RFQ and the RFP for the Project, or, who are members of the Design Criteria Professional team will not be allowed to participate on any Design-Build team in any capacity on this Project.

The County may also retain additional consultants to assist with the Projects as it deems necessary. The services performed by any County contracted consultants will not alleviate the DBE's responsibility to provide code-compliant designs and construction nor will they alleviate the DBE's responsibility to provide complete start-up and commissioning of all facility systems and elements.

XIII. **FEMA AND STATE FUNDING**

A portion of the overall funding for the project will be provided by both FEMA and the State of Florida. As a provision of this funding, certain provisions will need to be met in order for the County to document compliance. Among these requirements will be requirements for the DBE to develop an outreach program with Small and Minority Business, Women's Business Enterprises, and Labor Surplus Area Firms. In addition, the DBE will be required to comply with the Davis-Bacon Act, the Copeland "Anti-Kickback" Act, Contract Work House and

PD 16-17.004, Design-Build Services for the New Escambia County Correctional Facility

Safety Standards, Clean Air Act, and Federal Water Pollution Control Act and other contract provisions.

To understand the FEMA requirements fully, the DBE should review the provisions of 44 C.F.R. § 13.36, which is the source of these requirements as they apply to State, Local and Tribal governments. In addition, the DBE may review *FEMA's Field Manual, Public Assistance Grantee and Subgrantee Procurement Requirements*, which is available on the internet by searching for "FEMA Procurement Field Manual."

XIV. **SUSTAINABILITY REQUIREMENTS**

Per Florida Statute 255.252, the project will be required to "*be designed and constructed to comply with a sustainable building rating or a national model green building code*". Per this provision, the project will be required to comply with a multi-attribute sustainable rating system. The County will require the DBE to utilize either the USGBC LEED (ver. 4) rating system or the GBI Green Globes rating system for the project. The project must achieve LEED Silver or two Green Globes as a minimum.

The DBE will be required to state in the Stage 1 submittal process which system it intends to utilize for the project and how the team plans to achieve the required minimum rating. This information should be included in the "Project Management Approach" as indicated in Section XIX.

Insurance required of the Contractor or any other insurance of the Contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations, which arise out of this agreement, contract or lease.

Workers Compensation Coverage

PD 16-17.004, Design-Build Services for the New Escambia County Correctional Facility

The Contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least \$100,000 each accident and \$100,000 each employee/\$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile and Excess Or Umbrella Liability Coverage

The Contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.

Unless otherwise specified, minimum limits of \$1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employer's liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required

Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage

Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

Excess or Umbrella Liability Coverage

Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

BUILDERS RISK COVERAGE

Builders Risk insurance is to be purchased to cover subject property for all risks of loss, subject to a waiver of coinsurance, and covering off-site storage, transit and installation risks as indicated in the Installation Floater and Motor Truck Cargo insurance described hereafter, if such coverages are not separately provided.

The Builders Risk insurance is to be endorsed to cover the interests of all parties, including the County and all contractors and subcontractors. The insurance is to be endorsed to grant permission to occupy.

INSTALLATION FLOATER COVERAGE

Installation Floater insurance is to be purchased when Builder's Risk insurance is inappropriate, or when Builder's Risk insurance will not respond, to cover damage or destruction to renovations, repairs or equipment being installed or otherwise being handled or stored by the Contractor, including off-site storage, transit and installation. The amount of coverage should be adequate to provide full replacement value of the property, repairs, additions or equipment being installed, otherwise being handled or stored on or off premises. All risks coverage is preferred.

POLLUTION/ENVIRONMENTAL IMPAIRMENT LIABILITY COVERAGE

Pollution/environmental impairment liability insurance is to be purchased to cover pollution and/or environmental impairment, which may arise from this agreement or contract.

PROFESSIONAL LIABILITY/MALPRACTICE/ERRORS OR OMISSIONS INSURANCE

The Contractor shall purchase and maintain professional liability or malpractice or errors or omissions insurance coverage. The minimum limit of professional liability coverage shall be equal to 25% of the estimated construction contract price for the project. Said coverage shall be continuously maintained and in effect for a period of not less than **five (5) years** from the effective date of this Agreement. The policy limit of liability shall not include legal fees and other defense costs. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the effective date of this Agreement and shall not be advanced.

If at any time during the aforementioned policy period there should be a cancellation, non-renewal, or lapse in coverage, professional liability coverage shall be extended for the remainder of the five year period with a supplemental extended reporting period (SERP) endorsement to take effect upon expiration of the policy period referenced above. The limits of liability applicable to the SERP coverage shall be equal to the limits of liability applicable to the policy referenced above and to which the endorsement attaches.

Evidence/Certificates of Insurance

PD 16-17.004, Design-Build Services for the New Escambia County Correctional Facility

Required insurance shall be documented in Certificates of Insurance. If and when required by the County, Certificates of Insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the Certificate of Insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each Certificate of Insurance.

New Certificates of Insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the Contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information.

1. Indicate that Escambia County is an additional insured on the general liability policy.
2. Include a reference to the project and the Office of Purchasing number.
3. Disclose any self-insured retentions in excess of \$1,000.
4. Designate Escambia County as the certificate holder as follows:
Escambia County
Attention: Paul R. Nobles, CPPO, CPPB, FCN, FCCM
Senior Purchasing Coordinator
Office of Purchasing
P.O. Box 1591
Pensacola, FL 32597-1591
Fax (850) 595-4805
5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For Commercial General Liability coverage, the Contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

OCIP Reservations of Rights

Escambia County (Owner) may elect to implement an Owner Controlled Insurance Program on this project. Under this type of program, the Sponsor will centralize the

PD 16-17.004, Design-Build Services for the New Escambia County Correctional Facility

purchase of insurance for activities of the construction manager, general contractor, all subcontractors and all sub-subcontractors for work performed at or emanating from the project site. This consolidated purchasing of insurance is known as an Owner Controlled Insurance Program (OCIP) and will include Workers' Compensation, General Liability and Excess/Umbrella Liability coverage. Builder's Risk insurance coverage will be provided under a separate program. Participation in the OCIP will be mandatory for all tiers of contractors and subcontractors unless specifically excluded in writing by the Sponsor.

Escambia County and its OCIP Administrator will pursue an insurance deduction for General Liability, Excess Liability and Workers' Compensation insurances which are provided under the OCIP. Each Subcontractor and all tier Sub-Subcontractors will identify all insurance coverage costs at the time of bid. Upon award, Subcontractor and all tier Sub-Subcontractors will detail these costs to Sponsor. Escambia County will apply a 15% factor for profit and overhead on all insurance credits as part of each Subcontractors' overall credit back to the OCIP.

1. All bidders are required to submit their bid(s) with their insurance costs **INCLUDED** for this Project including the cost(s) to provide Workers' Compensation, General Liability and Excess Liability for this Project.

The contract award will then be reduced by the amount identified for insurance costs (the "Insurance Credit"). At the conclusion of the contract, an audit will be performed and the Insurance Credit will be adjusted based upon actual payrolls incurred on the project site and final contract amount including all change orders. **The insurance calculations will be based upon the rates that were effective at the time of contract award.** In the event that a contractor or subcontractor has a flat premium on their excess liability program, a standard excess credit of 30% of the primary general liability cost/credit will be accessed as a minimum from the Subcontractors.

THE FINAL AMOUNT WILL BE THE ESTIMATE OR ACTUAL, WHICHEVER IS HIGHER.

2. Each Enrolled Participant must provide documentation as follows:
 - i. Workers' Compensation Policy Declarations Page;
 - ii. Workers' Compensation Rating/Information Page (s);
 - iii. Workers' Compensation Experience Modification Worksheet;
 - iv. General Liability Policy Declarations Page;
 - v. General Liability Rating/Information Page (s);
 - vi. Excess Liability Policy Declarations Page;
 - vii. Excess Liability Rating/Information Page (s)

Insurance Broker and Agent summary letters will not be accepted as proof.

OCIP Reservations of Rights

These documents are subject to the Escambia County's acceptance. No deductible credits will be given for Worker's Compensation and/or General Liability insurance calculations.

First dollar or \$0 deductible insurance coverage is provided under the Project OCIP program for all Contractors enrolled in the program. Owner expects Subcontractor's insurance costs evidenced at bid time and then detailed on the Supplemental Bid worksheet to reflect "first dollar / \$0 deductible" rates.

Deductible or Self-Retention Credits or Self-Insured amounts may be identified in Subcontractor's credit calculation but will not be allowed for inclusion in Subcontractor's OCIP deduct rates. To accurately calculate the actual cost of insurance when using any of these programs would require including the costs of projected losses and loss funding. Verification of this amount would require the Subcontractor to furnish loss runs and payroll information on all work (including any / all Wrap-ups) for the last four years. Since this information may not be available at the time of bid, we will ask the Subcontractor to provide the following information:

- a) Policies using composite rates must show, at a minimum, the deductible/self-retention/self-insured amount and the rating breakdown. If the credit percentage is not available, minimum and maximum rates for the program must be identified.
 - b) Corporate allocations will not be allowed. The same format for calculation as shown for Composite Rates must be shown on Form 1 and furnished with the bid documents.
 - c) Any rate credits (other than credits for deductibles or self-retention or self-insured plans) or surcharges shown on the declaration and/or rating sheets will be used to verify Contractor's actual cost and determine the OCIP deduct rates.
 - d) First dollar / \$0 deductible" OCIP deduct rate calculations requirements (as outlined above) will be strictly enforced by Owner and the OCIP Administrator.
- A Subcontractor's OCIP deduct rates, once established and agreed upon at contract inception/initial deduct, will be used for all OCIP deduct calculations for the duration of a contractor's specific contract and will not be modified based upon future year's insurance rates.
 - An audit will be performed at the end of the project and a final insurance credit will be calculated based on the final, actual payroll of each subcontractor. All insurance credits will be adjusted based on the original insurance credit

developed at the beginning of the subcontract and adjusted only by changes in payroll.

OCIP Reservations of Rights

- Prior to and as a condition for final payment under the applicable Contract, an audit will be performed and the Insurance Credit will be adjusted based upon actual payrolls incurred on the Project Site and final contract amount including all change orders. **ALL CHANGE ORDERS SHALL INCLUDE THE ENROLLED PARTIES INSURANCE COSTS. Under no circumstance will a final audit result in a refund of the Insurance Credit back to any tier of Subcontractor. This is true, even if the actual payroll is less than the payroll estimated by the applicable Subcontractor in their cost calculation for the initial Insurance Credit.** Owner shall have the right to apply funds held as retainage under any Subcontract toward Insurance Credit, and to the extent that any monies are owed to Owner for Insurance Credit and yet Owner has funded the applicant Subcontract, or all monies owed under the Subcontract, then Subcontractor shall pay such amount to Owner upon ten (10) days' written demand.
- All change orders are to include subcontractor's insurance costs for worker's compensation and general liability and excess liability (as applicable).

As stated above at the conclusion of the contract, an audit will be performed and the Insurance Credit will be adjusted based upon actual payrolls incurred on the project site and the final contract amount including all change orders. **The insurance calculations will be based upon the rates that were effective at the time of contract award.**

Failure to comply with the OCIP Contractor Insurance Calculation procedures outlined above will result in all or any one of the following actions by the Owner:

- a) Owner may deny admission to Subcontractor (including lower tier Subcontractors) to the jobsite until the enrollment documents are received.
- b) Owner may withdraw or deny insurance provided by the OCIP.
- c) Owner may withhold progress payments for Subcontractors that are not in compliance.
- d) Owner may apply standard premium rates for applicable jurisdictional Workers' Compensation codes and their corresponding ISO General Liability codes for the work being performed. An Experience Modification rate of 1.0 will be applied to the Workers' Compensation rates in order to determine the Insurance Credit.
- e) Owner may apply a minimum Insurance Credit of 3.5% of the Subcontract sum.

Escambia County reserves the right to not implement an Owner Controlled Insurance Program at any time.
