

# Construction Notice of Commencement

## Chandler Street Drainage Improvements

### Project Overview

Escambia County's Construction Management Division will soon begin the Chandler Street Drainage Improvements project located in District 5. To provide improved conveyance for existing stormwater runoff, the project will include roadway milling and resurfacing, roadside drainage improvements, a subsurface drainage system, waterline removal and replacement upgrades, utility coordination and relocations, and driveway improvements. The roadway will be open during construction and traffic may be reduced to a single lane or detoured through Chauncey Street. The project is anticipated to be complete in September 2025.

### Resident Information

- Construction costs of \$2,472,526 are funded by the American Rescue Plan Act, Local Option Sales Tax IV, and a Resilient Grant.
- Roads, Inc. is the primary contractor.
- Areas outside the project limits that are impacted during construction will be returned to their previous state.
- Access to adjacent properties will be maintained, although there may be short periods when a driveway or entrance is blocked.
- An engineering consultant inspector will monitor the construction area daily.
- Your cooperation and patience are appreciated during the construction process.
